www.fraislux.com

Sydney, Australia – Luxurious and aromatherapeutic, Frai is the perfect accessory for a stylish home, traveler, or anyone desiring a bit of luxury while maintaining good health and environmental responsibility.

Fraishand is the pioneer in the creation of a new beauty category – LUXURY, ECO-FRIENDLY hand sanitizers. Fraishand is actually enjoyable and beneficial for the user.

What makes Frai Eco-Friendly?

- High grade, all-natural ingredients – nothing artificial
100% Vegan
Certified by PETA as a 'cruelty-free cosmetic producer'
All packaging is recyclable
Processing alcohol from sugarcane versus corn or grain used in other brands requires much less energy to produce
Sugarcane is a fully renewable resource
Using Fraishand helps save valuable resources wasted on avoidable medical care
Sydney headquarters sources green power such as wind and solar
Donates a portion of proceeds to Just A Drop – foundation bringing clean water to communities around the world

'Fraishand Hand Sanitizer is derived entirely from plants. Our methyl cellulose is made from the cellulose of vegetables, and our alcohol is derived from sugarcane.
