coverstory

Workin' It

The workplace wardrobe, with all its rules and regulations, is one of the toughest to pull off. Until now.

i. what's in store

true lies

True Cosmetics's Essential line turns back the clock to create deceptively young skin. With ingredients like white tea, algae extract, aloe vera, perilla seed oil and vitamin C, the line counteracts the effects of sun and aging with intense firming and moisturizing properties. Keep Essential Moisture Eye Contour Cream handy during flights to avoid puffy eyes upon landing. Essential Moisture Enhancer replenishes skin after aggressive treatments like microdermabrasion and Essential Firming Tech Cream can be applied to any part of the body that needs a little lift. **Eye cream, \$57, moisture enhancer, \$54 and firming tech cream, \$90, all available at Ritz-Carlton Spa at Lake Las Vegas**

get the look

Can't make it to the beach this summer? Bring beach-warm color to your eyes, cheeks and lips with the metallic sheen of Elizabeth Arden Bronze Look 2008. It's one of four complete looks inspired by Elizabeth Arden spokesperson Catherine Zeta-Jones. The assortment includes Sun Goddess Bronzing Powder- Medium, Bronzing Beauty Kit for Face and Eyes and Color Intrigue Gel Eyeliner in shades of bronze pearl and black pearl. **Powder, \$35, kit, \$35.00, eyeliner \$22.50 each, all available at Macy's at Fashion Show mall**

healthy hands

If you took a moment to consider everything your hands touch throughout the day, you would want to spend the entire next day scrubbing them. Lucky for you, our friends down under have introduced Frais Hand Sanitizer. It contains a formula of 66 percent sugar cane alcohol which kills 99.9 percent of germs on contact. And the natural essential oils like ginger, tangerine, basil and grapefruit, leave hands luxuriously moisturized. So now you can indulge in your sanitation. **Frais Hand Sanitizer, \$7 for 1.7 fl. oz., fraisluxuryproducts.com and beautyhabit.com**

makeup match

Cover Girl wants to spare you the embarrassing makeup mask that ill-matched foundations create. The cosmetic company's TruBlend foundation line consists of 15 different shades intended to "merge with your skin." Each of the 15 shades belongs to one of six skin tone categories. Once you've selected your match, complementary concealer, blush and powder are no-brainers. **Cover Girl TruBlend liquid foundation, \$7.99, Ulta**

i. coming up

Traveling soon? We show you what to wear while making your way to your destination and the best looks to sport once you arrive. **PLUS:** We put women's fashion sizes to the test and report the results.
