sprig stat

a tip or fact to take away

Bamboo You:

Bamboo fabric is hypo-allergenic, antimicrobial, does not hold body odor, and acts as a natural sunscreen. The fabric also regulates body temperature better than regular cotton.

Frais Hand Sanitizer

Rate it now:

Average rating:

Why It's Good:

When you can't get to the sink, a hand sanitizer is the next best option. This formula kills 99.9% of germs, but it's gentle on hands with a citrus clean scent.

Why It's Green:

A natural and botanical formula with ingredients like tangerine peel oil, ginger, basil and cardamom seed oil. The active ingredient is Ethyl alcohol from sugarcane, a far cry from the triclosan used in traditional antibacterial products, which is a hormone-altering chemical that was recently found to be one of four contaminating chemicals found in the bodies of young women.

Where To Get It:

www.frais.com.au | \$7
