## Random Loves; Frais Hand Sanitizer and Gillette Venus Embrace

I'm sent a little bit of everything, and sometimes it isn't what directly fits into a beauty category, but it's fantastic enough to pass along. Here are a few.

Alcohol from sugar cane sanitizes and kill germs safely, along with a blend of essential oils like ginger, orange, and basil make a near perfect hand sanitizer that not only kills germs, but softens as well. All ingredients are plant derived, vegan, and without parabens and chemicals. Perfect for the germ-conscious mom who wants something safe and effective for her and the little ones alike.
