Finally a Hand Sanitizer I Wouldn't Mind Using.....

YOOX.COM

"Simple is for every woman who knows she can be both real and sexy at the same time."
- François Nars

If there was ever a time to keep those hands sanitized, then now would be that time. Frais is an all natural, vegan hand sanitizer that kills 99.9% of germs. The key ingredient is high-grade energy efficient sugarcane alcohol. This product also contains essential oils, cardamom, grapefruit, niaouli, and basil. An elegant solution to dealing with those nasty germs, and poorly scented and dry skin inducing germ killers.
