Eco-friendly and luxurious too, Frais is a luxury, eco-friendly hand sanitizer. It's formulated with their Les Huit blend of 8 essential oils. Frais is made with all natural ingredients including sugarcane instead of the usual corn ethyl alcohol. It has no parabens and no other yucky chemicals and it comes in a uniquely designed bottle. I have the pocket size. I need to get a larger bottle though. I love the feel and smell of it so much, I almost used the pocket size up in one day!

Head to toe sun protection is a must for me and should be for you too! Coola Total Body features a powerful antioxidant age-defying SPF formula. It penetrates deeply and moisturizes wonderfully. I use the Plumeria SPF 30 over my entire body. It's enhanced with organic plumeria extracts and smells so good! Coola Total Body comes in a variety of SPF's and cucumber and melon scents too. There is even an unscented formula. It is so smooth, lightweight & non-greasy. This is a sunscreen that you will definitely use every day. You ought to!

I finally got the guys at "It's a Glam Thing" into the habit of getting regular manicures so much so that I found one of them sitting at his desk using my new Artemis Woman Smooth and Shine Power Nail Buffer! It's a hand held battery operated grooming tool. It buffs nails at 40 strokes per second. He was amazed at how it buffed the imperfections out of his nails and shined them up. It has three attachments one for smoothing, one for buffing and one for glossing. I want it back Keith!
