Festival Beauty Survival Kit 08 May 2009

All you need to get glam and glowing at this year's festivals

With stylish celebs like [Cat Deeley](#) and Kate Bosworth already setting the bar for fab festival fashion we thought it was about time we minimised our make-up bags in prep.

We'll be having a decent fake tan before we go so we're leaving the bulky base at home and making do with a light tinted moisturiser. As for make-up we advise a minimal approach. Have you tried applying lip liner in a porta loo? Instead smudge on a rosy gloss from [Laura Mercier](#), and define eyes with a long-lasting mascara. We love No 7's [Intense Volume Mascara](#).

We'll keep our hands clean and fresh with [Fraiss](#), a sweet smelling sanitiser that doesn't dry out skin and refresh our parted out hair with James Brown's mini [Dry Shampoo](#). Who says we can't do low maintenance?

FYI If you've already bagged your tickets to the Isle of Wight Festival be sure to check out LOOK's very own Pamper Parlour with beauty freebies, complimentary hairdo's and shoulder-softening massages.
