Here we will be introducing and informing you about our Trevallyn Grocer product line...

Frais Luxury Hand Sanitiser

We are very excited to have received our first stocks of Frais Hand Sanitiser.

Timing is perfect given the current state of awareness over the transfer of germs such as Swine Flu.

This product is a great alternative to current sanitisers on the market which can be very drying and a problem for sensitive skin.

Here are some excerpts from the Frais website...

"Frais Hand Sanitizer adds luxury to the smart practice of regular hand sanitizing. Using a blend of eight natural Australian-blended essential oils it conjures uplifting thoughts and leaves hands pleasantly moisturized.

The 66% high grade eco-friendly sugarcane alcohol kills 99.9% of germs on contact.

Frais contains only non-toxic ingredients sourced from plants and certified as "PETA" cruelty free by PETA.

Frais Hand Sanitizer was approved by Dermatologists as non-sensitizing and non-irritating with a perfect score.

The product was developed by the owners of Frais during a tour of Cambodia's stunning Angkor Wat temple complex. Trying to keep themselves healthy in Cambodia, they simply could not understand why the process of regular hand sanitizing had to be so clinical and unpleasant when the Earth provides many amazing plant essences.

They worked with chemists in the United States to make an elegant-feeling non-toxic sanitizer, and recruited essential oil experts in Australia to create a sensuous moisturizing oil blend. Customers all over the world love the result, Frais Les Huit Hand Sanitizer."

We like it because we love the fragrance and it dries quickly on the skin without leaving any gel like residue common in other sanitisers.

It comes in 3 sizes:

- 6ml pocket packs
- 50ml flip tops for handbags
- and larger pump dispensers for your bathroom vanity or kitchen benchtop.

Find out more about the product at www.frais.com.au or, better still, visit our store and try the product for yourself - (tester available)

Frais Hand Sanitiser is exclusive to the Trevallyn Grocer in Launceston, Tasmania

Tasmanian Handmade Soaps from Nature's Path

These have been a big hit with tourists and regulars since they arrived in our store a couple of weeks ago.

Nature's Path Soaps contain 100% Tasmanian olive oil. They contain no artificial colours or alcohol based fragrances. The developers' philosophy is that if they are suitable for those with sensitive skin then everyone can use them.

We carry the full range:

- Olive oil, coconut & black rice
- Olive oil, spearmint, parsley & pine rosin
- Olive oil, avocado oil & aloe vera
- Olive oil, damask rose, rose petal & paprika
- Olive oil, coffee & vanilla bean
- 100% Olive oil
- Olive oil, goats milk & lavender
- Olive oil 3C (calendula, cleavers, chickweed)
- Olive oil, apple mint & apple blossom

So far we have tried the Rose, Coffee & Vanilla Bean and Avocado Oil & Aloe Vera Soaps and they have been popular with everyone in our house (even the teenage boys!) The fragrance is delicate and not overpowering and the soaps last well and don't disintegrate halfway through the bar like many commercial varieties seem to.

Great for your own house but equally popular as a small gift.
